

BRICKENDON
transformational consulting

**BRICKENDON CONSULTING JOB DESCRIPTION:
UAT TEST ANALYST – RISK APPLICATIONS**

Business/function:	Practice
The opportunity:	UAT Test Analyst – Risk Applications
BC Ref No:	BC/
Location:	Krakow, Poland
Salary:	Zloty negotiable + benefits
Reports to:	Director – Head of Delivery (Poland)
About Brickendon Consulting:	<p>Brickendon is an award-winning transformational consultancy specialising in innovative solutions that solve our clients’ challenges quickly and efficiently.</p> <p>Focused on three practice areas of digital, data and automation, our aim is to disrupt the market with the latest machine learning, automation, data analytics advisory and programme delivery.</p> <p>Since inception in London in 2010, Brickendon has rapidly grown and has established additional offices in the US, Poland and Australia. Core to our success is how we foster a culture of innovation and lateral thinking and encourage our people to develop new approaches and techniques.</p> <p>Our specialist digital arm, Brickendon Digital, focuses on disrupting and challenging the digital landscape with daring, cutting-edge products, including HotDeskPlus and EUCplus. We use the latest software and techniques to create rapid, technology-led solutions and visionary products to help our clients excel.</p> <p>We are a member of the Women in Finance charter and are committed to working together to build a balanced and fair industry.</p>
Overview of initial assignment:	Brickendon is working with a number of banks across Poland, providing teams to deliver testing across internal risk applications.

Key responsibilities

An overview of sample responsibilities:

- Write functional or black-box test cases
- Execute the test cases
- Coordinate with the development and business teams
- Report test results
- Provide effective test strategy against assigned projects
- Build relationships with stakeholders and arrange meetings/workshops throughout the test phase of a project
- Analyse business requirements, processes and specifications in order to define and design UAT test scenarios and scripts
- Design and maintain test plans, schedules and completion reports
- Lead and coordinate the activities of testers at a more junior level
- Collaborate closely with the valuation and analytics team in Paris

Experience

The UAT Test Analyst should possess the following skills and experience:

- Prior experience in working within the banking industry
- Experience testing risk systems
- Understanding of risk parameters and models
- Working knowledge of VBA, SQL or any other programming language (preferred)
- Strong previous experience within User Acceptance Testing (3+ years)
- Ability to create own testing strategy, scripts and frameworks
- Experience of working within a project/programme of work
- Ability to use test management software such as Quality Centre
- Knowledge of regression testing
- ISTQB foundation or equivalent (beneficial)
- Understanding of software/change releases
- Skills in stakeholder management
- Excellent communication skills and personable approach
- Excellent analytical skills and a proactive approach to problem solving
- Excellent written/verbal communication skills

AWARDS

Brickendon has been recognised with many awards for our cutting-edge work. Here are some examples:

The European Software Testing Awards

-  Finalist every year since 2013
-  Winner in 2013 for Best Automation Project; Winner in 2016 for Best Overall Testing Project in Finance

DevOps Industry Awards

-  Finalists every year since inception (2017)

Banking Technology Awards

-  Finalist and winner in 2012: Front Office Technology

Brickendon's CEO Chris Burke has been recognised for the second consecutive year in the Ones to Watch list of leaders tipped for great things, as part of LDC's Top 50 Most Ambitious Business Leaders campaign.

WHY CHOOSE BRICKENDON?

Our track record

We have demonstrated a long, proven track record for transforming our clients through our innovative bespoke solutions. In 2018 we were nominated as finalists in the DevOps Industry Awards for the second year running and are a two-time winner of the European Software Testing Awards.

Our innovative approach

No one client is the same, therefore our intelligent, experienced and focused consultants use their domain experience to address each challenge in an innovative way, using skills from their past and knowledge from Brickendon's continual learning hub.

Our resources

Our onshore, offshore and nearshore capabilities mean we are well placed to cater for all client needs, making the best possible use of the 10-years-plus domain experience of all our consultants.

Our passion

We love what we do and thrive on improving our clients' profitability, efficiency and increasing their competitive edge. We are driven to develop the most innovative solutions and take pride in seeing the tangible benefits of a project come to fruition.
